WORK EXPERIENCE

Althera Studios

Environment Artist Oct 2025 — Present

- Created modular environment kits, props and weapons.
- Designed assets using trimsheets and kitbashing.
- Collaborated with other designers to maintain consistent art style and technical standards across the project.

M11 Studios

Environment/Prop Artist Nov 2022 — Jun 2023

- Created modular environment kits, props, weapons, and gear for Compass of Destiny: Istanbul.
- Designed and optimized assets using trimsheets, kitbashing and custom LODs.
- Researched real world references to create believable and immersive assets.
- Collaborated with other designers to maintain consistent art style and technical standards across the project.

Stratera Games

Environment Artist Nov 2021 — Sep 2022

- Designed stylized levels and contributed to world building in Unity 3D for Lighthouse Keeper.
- Created interactable props, foliage, weapons and architectural assets.
- Focused on lighting and optimization to improve performance.
- Integrated outsourced assets and adapted them into the projects stylized art direction.
- Collaborated remotely with concept artists and developers for asset integration and creation.

Erik Games

Junior Environment Artist Jun 2021 — Nov 2022

- Worked on realistic environments and asset packs for Unreal Engine Marketplace.
- Focused on modularity and reusability to fit different client needs.
- Created easy to use and flexible master materials for assets.
